PROFESSIONAL SUMMARY

MCA student at MIT-WPU, Pune, with hands-on experience in full-stack web development through an industry internship and academic projects. Skilled in HTML, CSS, React, Node.js, Express.js, MongoDB, SQL, and .NET. Experienced in developing responsive web applications, integrating REST APIs, and working with databases. Applied Python, OpenCV to develop an AI-based Indian Sign Language translation project. Adaptable and eager to learn new technologies, strengthen technical skills, and contribute to diverse projects in a professional environment.

EDUCATION

MIT – WPU 2025 - Present
Master of Computer Application (MCA)
Veer Narmad South Gujarat University Jul 2022 - Apr 2025
SDJ International College
Bachelor of Computer Application (BCA) CGPA: 7.28

SKILLS

Programming Languages: Java, Python, C, JavaScript
Fundamentals: OS, OOP, DBMS, Computer Networks
Frameworks & Libraries: HTML, CSS, .NET, React
Tools & Platforms: GitHub ,VS Code, Jupyter
Databases: SQL, MySQL, MongoDB
Soft Skills: Communication, Teamwork, Time Management, Adaptability
Languages: English, Hindi, Gujarati

WORK EXPERIENCE

Intern Dec 2024 - Feb 2025
Manarsh Technologies Surat

- Created responsive pages and reusable UI components
- Integrated APIs into frontend and backend systems.
- Enhanced debugging and deployment skills.
- Contributed to real client projects with guidance.
  Technologies / Skills Used: HTML, CSS, JavaScript, .NET, SQL, ReactJS.

PROJECTS

Sanjeevani – Connecting Farmers to Trusted Warehouses | GitHub Oct 2024 - Jan 2025
Developer

- Architected a full-stack platform linking farmers with verified warehouse owners on the 4-technology MERN stack.
- Secured access through authentication and role-based control for 2 user roles: farmers and warehouse managers.
- Styled a responsive interface with 2 front-end tools, React.js and Tailwind CSS, that adapts across devices.
- Exposed REST APIs with 2 backend technologies, Node.js and Express.js, backed by MongoDB for data storage and retrieval.
  Technologies /Tools Used: React.js, Node.js, Express.js , MongoDB, Tailwind CSS,Vite

Zuban ISL – Real-Time Indian Sign Language to Text & Speech Translator
Developer

- Developed a real-time application translating webcam-based Indian Sign Language gestures into 2 outputs: English text and speech.
  Implemented hand landmark extraction and feature processing using MediaPipe and OpenCV for gesture recognition.
- Integrated a machine learning inference pipeline with a FastAPI backend and React.js frontend for real-time translation.
- Implemented temporal smoothing and sent ence generation to improve recognition stability and convert recognized signs into English sentences.
  Technologies: React.js, Vite, Python, FastAPI, MediaPipe, OpenCV, NumPy, Scikit-learn, WebSockets.

Game Rental System | GitHub
Developer

- Developed a PHP-MySQL web application that enables users to rent video games instead of purchasing them, reducing the need for large upfront spending.
- Implemented 3 core user workflows: registration, login, and game rental.
- Created an administrative panel to manage 3 types of records: game listings, user details, and rental information.
  Technologies / Tools Used: HTML, CSS, JavaScript, PHP/MySQL
